

DESCRIPTION

Compact sized, stylish column speaker with reduced visual impact. Excellent acoustic features, high quality audio and steering which allows the sound to be directed at the listening area. Manufactured in aluminium with 2" moisture resistant loudspeakers.

The models **FCS-16** and **FCS-21** are P. A. speakers with 100 V line transformer. Due to their compact size they produce reduced visual impact. They supply excellent acoustic features, high quality audio and directivity that allows the audio to be directed to the audience area. Manufactured in aluminium and with 2" loudspeakers they are excellent for reproducing high quality speech, being specially recommended for churches, conference rooms, congresses, etc. The adjustable fixing mounts are included for installation.

A multi-impedance 100 V line transformer is included for connecting different powers depending on the model and P.A. needs, making them appropriate for 100 V line installations that allow long distance lines, easy installation and power distribution. They also allow a low impedance connection and have a switch for changing impedances and switching off.
