SCD-600

CONTROL UNIT FOR DIGITAL CONFERENCE SYSTEM.

- ✔ Ensures communication between participants and improves collaborative work
- ✔ Cat 5e/Cat 6 cable connection
- ✔ Live voting possible
- ✔ DSP function and feedback suppressor.
- ✔ PC software for configuration and control

ESPECIALLY RECOMMENDED IN:

Education

Offices

DESCRIPTION

Digital conference system The SCD-600 digital conference system is the ideal solution for any type of conference. Ensures communication between participants and improves collaborative work. Cat 5e, Cat 6 cables for connection between devices which reduces cost and ensures an easy installation. Allows a cable length of 100m. A versatile system, perfect for conferences of any size. The conference system manages speaker participation by controlling the maximum number of active microphones at the same time. Microphones are push-button activated and the chairman microphone may take priority over delegate microphones. Supports one chairman microphone. The main unit powers up to 16 microphones with the possibility to expand up to 72 microphones in total with the optional mod. microphone extension SCD-630EXT. The optional SCD-610P and SCD-620D mod. microphones have LCD information display, voting buttons, monitor loudspeaker and headphone output. They do not require any additional power supply and are immediately recognised by the SCD-600 central unit without configuration. It is a fully digital system that offers excellent sound quality and a multitude of options such as:

- Priority control with delegate cut-off while the chairman is in priority and selection of maximum number of microphones in operation
- Live voting with live voting results.
- Session recording on USB storage device
- Audio file playback via USB port
- DSP functions and feedback suppressor on each microphone
- PC software with a multitude of configuration and conference control options.
- Android App
- DANTE compatibility (optional mod. SCD-640DT)
- Analogue inputs and outputs with market standard connections: XLR and RCA
- Control of a PTZ camera
- Integration with fire alarm systems.

Conference rooms, plenary sessions, parliaments, business centres, etc.

TECHNICAL CHARACTERISTICS

FEATURES	<p>Control unit. LCD information display. USB recorder/player. Priority control with delegate cut-off while president has priority. Maximum number of microphones in use selector. Power supply for 16 microphones (8 on each of the 2 microphone ports). Control up to 72 microphones in total with the SCD-630EXT microphone extension. The system supports 1 chairman microphone. Audio and control signal transition between the switchboard and the microphones. Live voting possible. DSP function and feedback suppressor. Connection between system elements with Cat 5e, Cat 6 cable (see note). PC software for configuration and control 1 x PTZ camera control.</p>
RESPONSE	20- 20,000 Hz
INPUTS	<p>2 conference microphone ports, RJ45 (see note) 1 Ethernet, RJ45 1 RS-485 PTX camera control, RJ45 1 Alarm-in, activation of alarm status by contact closure. Euroblock 1 balanced microphone, XLR 1 line (Aux and Alarm), 2 x RCA</p>
OUTPUTS	<p>2 recording, 2 x RCA 1 unbalanced line, 2 x RCA</p>
POWER SUPPLY	230/115 V AC, 350 W
DIMENSIONS	483 x 88 x 330 mm depth. 2 U 19" rack
WEIGHT	5.65 kg
OPTIONAL	<p>SCD-610P: president desktop microphone SCD-620D: delegate desktop microphone SCD-630EXT: microphone extension SCD-640DT: DANTE expansion module</p>
NOTE	<p>It is necessary to use high quality Cat 5e/6 cables with FTP/SFTP shielding, 24 AWG. Cables should have shielded connectors with the cable shielding connected to the connector shield. Maximum cable length 100 m. Cables between microphones should not exceed 2-3 metres.</p>
